Resistance Mechanism

Summary (summary counts and figures only include Loose hits of e-10 or better)						
Filename	Date (UTC)	RGI Criteria	# Perfect Hits	# Strict Hits	# Loose Hits	Download
filtered_scaffold	June 08, 2026 20:10:47	Perfect, Strict, complete genes only	0	13	0	Download

Results (all Loose hits shown)					
Search:					
RGI Criteria	ARO Term	SNP	Detection Criteria	AMR Gene Family	
Strict	vanT gene in vanG cluster		protein homolog model	glycopeptide resistance gene cluster, vanT	gly an
Strict	vanY gene in vanB cluster		protein homolog model	vanY, glycopeptide resistance gene cluster	gly an
Strict	vanW gene in vanI cluster		protein homolog model	vanW, glycopeptide resistance gene cluster	gly an

Strict	vanY gene in vanB cluster		protein homolog model	vanY, glycopeptide resistance gene cluster	gly an
Strict	vanY gene in vanB cluster		protein homolog model	vanY, glycopeptide resistance gene cluster	gly an
Strict	tet(36)		protein homolog model	tetracycline-resistant ribosomal protection protein	tet an
Strict	vanT gene in vanG cluster		protein homolog model	glycopeptide resistance gene cluster, vanT	gly an
Strict	cfrC		protein homolog model	Cfr 23S ribosomal RNA methyltransferase	lin an str an ox an ph an
Strict	vanH gene in vanM cluster		protein homolog model	vanH, glycopeptide resistance gene cluster	gly an
Strict	vanW gene in vanI cluster		protein homolog model	vanW, glycopeptide resistance gene cluster	gly an
Strict	vanW gene in vanI cluster		protein homolog model	vanW, glycopeptide resistance gene cluster	gly an
Strict	vanT gene in vanG cluster		protein homolog model	glycopeptide resistance gene cluster, vanT	gly an

Strict	Clostridioides difficile gyrB conferring resistance to fluoroquinolones	R377G, I139R	protein variant model	fluoroquinolone resistant gyrB	flu an
